BY BOGERD MARTIN

Bogerd Martin will be attending SMM Hamburg, 3 - 6 September 2024!

7 JUNE 2024

We will be exhibiting at SMM in Hamburg next week! We're especially excited to welcome you with our new partner, mariem solutions GmbH, to our stand, where we will be presenting the integration of their MDLT data (Polas Code Pass) into our latest CT Insights platform.

Visit us at Booth 8.105 to meet our product experts and discuss the latest innovations. We've recently released new versions of our leading solutions, including the CT Suite, CT Insights fleet tracking & performance dashboard, and CT e-Logbooks. Plus, we're gearing up to launch exciting new features like MDLT data, whale data, and much more!

Schedule a meeting or drop by to experience live demonstrations of our CT Suite, CT Insights Fleet Monitoring, CT Navlog, and more. Gain insights, ask questions, and discover how our tools can elevate your operations.

We look forward to connecting with you at SMM Hamburg next week!
